Profile

Prospective data analyst who strives to pose and answer questions with quantitative-driven insights. Through developing personal and university projects, I have learned the importance of having an iterative and hypothesis oriented approach to analysis. I am eager to leverage that approach as a data analyst,

Employment History

Education

Masters in Science, University of Padua, Padova

June 2020 — Present

Bachelor of Science, Daffodil International University, Dhaka

January 2014 — January 2018
